Bangalore, India

EDUCATION

- **Dayananda Sagar College of Engineering** Bengaluru, KA
Bachelor of Engineering in Computer Science; CGPA: 9.0 *Nov. 2021 – Apr. 2026*

EXPERIENCE

- **EdgeVerve Systems Limited** Bangalore, India
Product Engineer Intern *Feb. 2025 – Present*
 - Engineered banking workflows for **Universal Banker** using **React.js** and **React Native**, supporting RM and Teller operations across account management, transactions, and Ladder CD flows.
 - Prototyped conversational **Ladder CD workflows** using intent recognition, asynchronous UI orchestration, and frontend-driven backend simulation.
 - Developed **BFF** workflows and mock service integrations to streamline frontend-backend orchestration for conversational banking systems.
 - Built AI-assisted workflows using **LangChain**, **Langflow**, and **Agentic AI**, while reverse-engineering the internal **FlowBuilder** platform based on **Node-RED** and authoring technical documentation for internal teams.

PROJECTS

- **Vichaar : A Full Stack Blogging Platform** GitHub
React.js, TypeScript, Hono, PostgreSQL, Cloudflare Workers *Feb. 2025 – Present*
 - Built a full-stack blogging platform using **React.js**, **TypeScript**, **Hono**, and **PostgreSQL** with authentication, rich-text editing, and responsive UI.
 - Engineered backend APIs and edge deployments using **Prisma ORM**, **Cloudflare Workers**, **Vercel**, and CI/CD workflows with **GitHub Actions**.
- **SchedLang : A Domain-Specific Scheduling Language** GitHub
C++, Compiler Design, Recursive Descent Parsing *May 2024 – June 2024*
 - Designed and implemented a custom scheduling DSL with lexer, parser, and semantic analysis using LL(1) parsing techniques.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, C, C++
- **Frontend:** React.js, React Native, Next.js, Tailwind CSS, Redux, Zustand
- **Backend & APIs:** Node.js, Express.js, Hono, REST APIs, BFF Architecture
- **AI Engineering:** LangChain, Langflow, Agentic AI, Prompt Engineering
- **Databases & Cloud:** PostgreSQL, MongoDB, Prisma ORM, Cloudflare Workers, Docker, Vercel
- **Tools:** Git, GitHub, GitHub Actions, Node-RED, Firebase

ACHIEVEMENTS CERTIFICATIONS

- Secured a **Top 5 position** among 35 teams in *Hack-o-Rama 2024* and was selected among the **Top 100 projects** out of 500+ participants at the SMVIET Puducherry Hackathon organized by OX.day.
- Presented **RainCheck** at the **DSI-DMMES-2026 International Conference** hosted by Dayananda Sagar College of Engineering.
- Co-authored *Modern JavaScript Frameworks and Libraries: A Comprehensive Survey Study*, published in the *International Journal of Research Publication and Reviews* (July 2024). [[LINK](#)]
- Completed professional training in **React.js**, **React Native**, **Agentic AI**, **Figma**, and earned certifications in **SQL** and **JavaScript** from **HackerRank**.
